

## List of Speakers and Topics for SERMACS 2002

Symposium Organizer(s)	Symposium Title
Adams and Grant	Macrocyclic and Supramolecular Ligands

The Symposium covers a broad range of interests and incorporates organic, analytical and inorganic chemists as well as biochemists.

*Speaker Name, Institutional Affiliation  
Title of Presentation*

Richard Adams, University of South Carolina  
Catalytic Synthesis of Thiocrowns from Thietanes and Thiiranes

Gregory Grant, University of Tennessee - Chattanooga  
Platinum Diphosphine complexes of Macrocyclic Trithioethers

Steve Loeb, University of Windsor  
Mechanical Linkages: Towards Functional Molecules & Materials

Martin Brechbiel, National Institutes of Health  
Novel Macrocyclic Ligands for Sequestering Radionuclides In Vivo

Bruce Gibb, University of New Orleans  
Self-assembly of Nanoscale Materials

Richard Taylor, University of Oklahoma  
Heavy Metal Complexes of Cryptands

Kent Barefield, Georgia Tech  
Diastereoisomers of Ni(tetramethylcyclam)<sub>2</sub><sup>+</sup>

Dan Rabinovitch, University of North Carolina - Charlotte  
Transition Metal Complexes of Poly(mercaptopimidazolyl)borates

Dave Rorabacher, Wayne State  
The Effect of Macrocyclic Ligand Constraints upon Electron-transfer kinetics

Donal Macartney, Queen's University  
Self-Assembly of Metal-Stoppered Cyclodextrin Rotaxanes

Monte Helm, University of Tennessee - Chattanooga  
Heavy Metal Complexes of Crown Thioethers

Gary Gray, University of Alabama - Birmingham  
Metallacrown Ethers: Synthesis, Cation Binding and Catalysis
